Experience

SEP 2022 – PRESENT
DevOps Consultant / Xebia | Xpirit, USA

Xpirit part of Xebia is a Microsoft Gold Partner & GitHub Verified Partner. I joined a team of highly experienced consultants, experts in cloud transformation using Microsoft Azure, building high performance IT teams using DevOps, and creating Cloud Native Software.

OCT 2021 – SEP 2022
Senior Program Manager – Localization / Microsoft, USA

Spanish & Portuguese localization for technical content to enabling & accelerating the consumption of the most relevant localized content to grow product adoption & usage globally.

APR 2021 – OCT 2021
Senior Developer Advocate – Azure Maps / Microsoft, USA

I created and presented different technical content for Azure Geospatial APIs.

JAN 2018 – APR 2020
Senior Product Marketing Manager – Azure App Innovation
Microsoft, USA

I helped defining, validating, and creating a pipeline of end-to-end demo applications focused on Azure services for developers. Drove an agile process for demo development with multiple cross-company stakeholders for major Microsoft events and keynotes, supporting the demos delivering, including executive demo support and on-stage presentation. Worked broadly across Microsoft Azure engineering, marketing teams, and field stakeholders to create technical content (whitepapers, presentations, demo assets, labs and training material and videos).

FEB 2017 – DEC 2017
Application Development Manager / Microsoft, Costa Rica

Technical delivery for Premier Support for Developers providing end-to-end managed support across the full Microsoft developer platform: on-premises, hybrid or in the cloud.

DEC 2015 – JAN 2017
Sales Solution Professional – DX / Microsoft, Costa Rica

I provided technical solutions to customers regarding Microsoft Developer Tools and Technologies. I worked through evangelism, marketing, and sales to secure the successful

adoption of the application lifecycle management suite including Visual Studio, Team Foundation Server (Azure DevOps) and Microsoft Azure.

JUN 2015 – DEC 2015

Senior Developer Advisor / Advisicon, Costa Rica

I delivered business and technical consulting services for LATAM based on strategic project management solutions using advanced project and portfolio management methodologies and tools, custom development, and comprehensive training.

AUG 2012 – JUL 2015

Technical Trainer / Advance Learning, Costa Rica

I delivered multiple custom courses and Microsoft Official Courses (MOCs) to Advance Learning customers based on SharePoint and .NET

JAN 2015 – MAY 2015

SharePoint Architect / Konrad Group, Costa Rica

Leading Architecture, Design, Implementation, Development and Deployment of SharePoint Solutions. Based on the Best Practices of the SharePoint Strategy and the ALM.

FEB 2012 – DEC 2014

Small Business Owner & Technology Consultant
Collaboration & Development Solutions, Costa Rica

I was the founder of a consulting services small business focused on SharePoint and .NET.

OCT 2010 – JAN 2012

Software Support Engineer II / HP Enterprise, Costa Rica

I provided support as Level I & II for the following HP Enterprise Software:

APR 2010 – OCT 2010

Software Developer / Universidad Latina de Costa Rica

Oracle database and forms developer in charge of optimizing internal reports and processes.

Education

2013 – 2015 (UNFINISHED)

Master Information Technology Management
Universidad para la Cooperación Internacional, Costa Rica

2008 – 2011 (GRADUATED)

Bachelor Computer Systems Engineering
Universidad Latina de Costa Rica
